No issue -- always push the right thing to do

Got a bit more lecture when hung up

I am asked to deliver the message about integrity ... I'll figure the way to do it and make it positive for future

Thank you for supporting this. It means a lot to me and was the right thing to do. I fully understand bob's concerns and agree that if kb had come forward for his employees only it would have gone a long way to repairing damage from suspension, but kb is just not wired that way and still probably believes deep down he did nothing wrong.

Subject: action items yesterdays AAC mtg

All -- here is what I have for action items from yesterdays mtg:

- 1- Finance/HR to document the updated #s that reflect the IC adjustment, that was discussed yesterday for the 3 individuals
- 2- HR to prepare letter per Bob's direction for each and employee files
- 3- SJ to coordinate update to the compliance committee
- 4- Finance to cut checks
- 5- Scott and Jason to go to AAC to give checks after face to face discussion with Kevin

If I missed anything let me know

Thanks to all of you for your time in regards to this matter
